

Overview

The workhorse of the catering industry, the fetcher and carrier has so many uses from a food server to a clearing trolley. Uprights are made from 30mm square section stainless steel (type 304). Shelves manufactured from 1.2mm stainless steel (type 304) with radius internal corners and a 40mm raised lip and rolled edge all round to retain load.

Full width robust stainless steel push pull handles at both ends. All welded construction to form a heavy duty unit. Four revolving buffers fitted as standard. Complete with 125mm diameter. Swivel castors two with brakes. Option of two three or four shelves providing maximum storage. The robust compact mobile design provides sturdy and hygienic conveyance in a busy catering kitchen.

Note:

HTG models are designed to accommodate GN 1/1 gastronome pans.

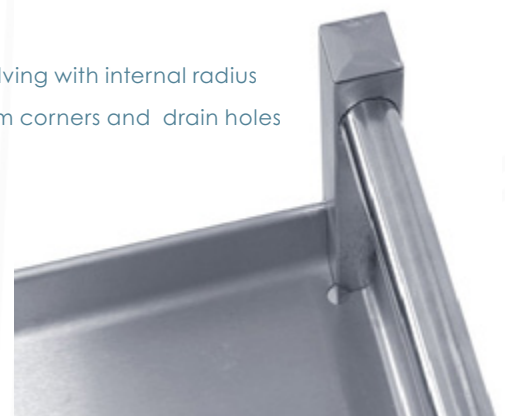

Model HT3
