

Overview

These specially designed tabletop dispensers are equipped with an internal plate rack suitable for holding up to 32 standard round or square plates. Maximises the use of limited space, particularly suitable for use in the customers areas of self-service counters and cafeterias or as part of an education or health care food service system. All stainless steel bright polished construction with a double hinged fold back lid and ergonomic lifting handles. Complete with green illuminating on/off switch and automatic thermostatic controlled heating. Plug the plate warmer into the 13amp power supply and switch on with the green illuminated switch. The temperature is regulated internally, and the plates should take about 40 minutes to heat.

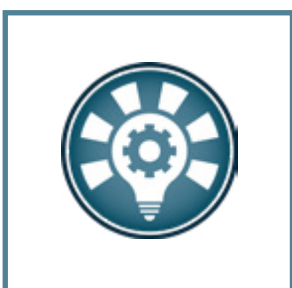

Key Features:

- Handles back and front for easy lifting and carrying.
- Bright polished finish throughout.
- Supplied with a 2-meter-long cord set with moulded 13 amp plug for easy installation [13A 230v 50Hz].
- Fold back hinged lid.
- Available in three standard sizes.

Models

- X6HP9: - for plates that are 200mm to 230mm diameter.
- X6HP11: - for plates that are 250mm to 280mm diameter.
- X6HP13: - for plates that are 305mm to 330mm diameter.

Models

Model	Weight (kg)	Dimensions L x W x H (mm)	Capacity (mm)	Electrical supply (mm)	Power rating (Kw)
